

To whom it may concern:

I would like to take this opportunity to inform your company of the outstanding professional standards Lauren Reis-Black has delivered for Harvest Media, Inc.

Lauren has acted as Harvest Media's Creative Director for several national publications we currently produce. Her title is Creative Director; however, that is only one aspect of her position. Her ability to problem solve and communicate with various members of my staff and agents of other companies we work with has proven to be one of her greatest attributes.

As a business owner in a very competitive market such as publishing, it is very refreshing to work with a creative person that understands business and the bottom line.

I write this letter of recommendation with the utmost respect and consideration for Lauren and the job she performs.

In closing, I would like to say if you are considering Lauren for any job in the future I feel confident in saying you will not be disappointed.

Sincerely,

Daniel Collins
CEO
Harvest Media, Inc.

**To prospects and colleagues
of Envision Works:**

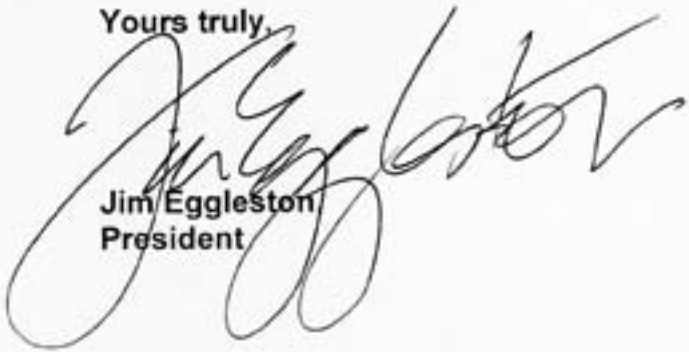

ABC Flag Manufacturing is beginning its second year of a close working relationship with Envision Works. Lauren has been an outstanding counselor and advisor for ABC Flag and its marketing and promotional efforts. What Envision Works has become, most of all, is an important partner in our growth and image endeavors.

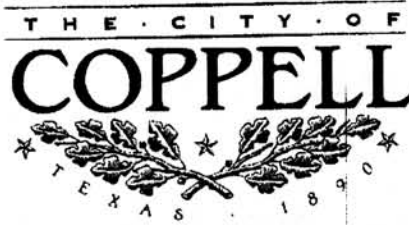

During our relationship, Envision Works has assumed control of our on-line marketing efforts, our print and direct mail projects, ad placements, and our on-site promotion and "walk-up" efforts. In 2001, we are entrusting our entire sales and marketing budget to Lauren's control. This will result in their assuming the challenge of a great deal of responsibility for our 2001 growth and, of course, the maintenance and enlargement of our existing client base.

ABC Flag would not entrust such a large part of its business model to them if we did not have the highest confidence in Lauren and Envision Works. We have seen them in action and our confidence and trust is well-founded. They work hard, they are creative and they produce.

We look forward to a long and prosperous relationship with Envision Works and offer our highest recommendation and praise for their ideas, their production, and their certain contribution to any forward-thinking company. We know others will benefit, as we have, from their association.

Yours truly,

**Jim Eggleston
President**

Mrs. Lauren Cleveland

Bedford, TX 76021

Mrs. Cleveland,

I would personally like to thank you and your creative team at Envision Works for designing a remarkably successful CD layout of our sponsorship opportunities the City of Coppell has to offer. At our first appointment we landed our highest level sponsorship, Premier Level, at \$12,000! We are so excited and will be presenting the packet to many other potential sponsors in the near future.

I greatly appreciate your time, added insight, and creative processes that went into creating this piece. Please feel free to use this letter as a reference for your business, as we were very pleased. I will definitely think of you in the future for our business needs.

Sincerely,

Kristina H. Courson

Dear Prospective EnvisionWorks Client:

At Girl Scouts – Circle T Council, it has been our pleasure to be included on the client list for EnvisionWorks for the last two years. During that time, Lauren Reis has been instrumental in helping us not only with graphic design, but with expert advice about cutting printing costs and boosting our communications efforts on our Web site. She is always conscientious about our budget needs as well as our deadlines and procedures.

Lauren's excellent graphic design work has been showcased in a complete redesign of our quarterly external magazine that goes to donors, prospective donors, businesses and the community at large. She also has done two beautiful annual reports for us, one of them under significant cost restrictions.

What I really appreciate about EnvisionWorks, in addition to the creativity found there, is their "corporate philosophy" about partnerships. EnvisionWorks isn't just another vendor who does projects for me, Lauren is always on the lookout for ways to help me at Girl Scouts and for donors to help fund our printing expenses.

I have been in communications for many years and have worked with lots and lots of graphic designers and agencies. I would enthusiastically recommend EnvisionWorks to any of my professional communications colleagues.

Sincerely,

A handwritten signature in blue ink that reads "Cathy O'Neal".

To whom it may concern:

During the past two years, Envision Works had assisted us with our safety/personal injury awareness program within the engineering division of the BNSF operating department. Their guidance, insight, and creativity have been invaluable to the success of our program.

We are very please with the product provided and we continue to use their resources when the opportunity is present.

To Whom It May Concern:

Over the course of the past year, the Fort Worth Human Resource Management Association has worked closely with Lauren Cleveland to design and develop an e-bulletin/e-blast communication campaign with our members. With Lauren's direction and creative design, we have taken the look and feel of our e-marketing to the next level.

She is highly creative and seeks to understand the organizations she works with in an effort to further promote them and their objectives. Our information is now presented concisely in a format that is easy to read with polished, sleek graphics and an overall professional look. With Lauren's design, we also have the opportunity to drive more traffic to our website and communicate more effectively with our members.

I would recommend Lauren for any creative marketing or communication campaigns. My thanks to you, Lauren, for your work on our e-blasts/e-bulletins and helping us to reach another level of sophistication and design in our communication efforts.

Regards,

A handwritten signature in blue ink, which appears to read "C. Stovall", is written over the typed name.
